

**Third  
International  
Conference**  
Intelligent Sensors  
Sensor Networks  
and Information Processing

December 3-6 2007  
Melbourne, Australia

## Symposium chairs

Neeli Prasad

Aalborg University

Marimuthu Palaniswami

The University of Melbourne

Yee Wei Law

The University of Melbourne

## Program committee

Roberto Di Pietro

Università di Roma Tre

Jeroen Doumen

University of Twente

Chris Leckie

The University of Melbourne

Tieyan Li

Institute for Infocomm Research

Miao Ma

HK University of Science & Tech.

Vallipuram Muthukumarasamy

Griffith University

Udaya Paramalli

The University of Melbourne

Nicolas Sklavos

Tech. Edu. Inst. of Messolonghi

## Organised by

ARC Research Network on Intelligent  
Sensors, Sensor Networks and  
Information Processing (ISSNIP)

## Call for papers:

### Symposium on Sensor Network Security

**Introduction** Security is a major concern for most sensor network applications. The area has seen an explosive growth over the last few years, as a result of researchers taking the initiative to address the issue alongside other fundamental problems. However, the hardware and energy constraint of sensor nodes remain a severe challenge to implementers of security. The purpose of this symposium is to bring together researchers and practitioners of the field with the goals of promoting discussion and collaboration.

**Topics of interest** We are inviting contributions addressing various aspects of sensor network security. Topics of interest include, but are not limited to:

- Access control
- Cryptographic protocol (design and verification)
- Key management
- Secure routing/MAC
- Trust management
- Steganography
- Privacy and anonymity
- Intrusion detection and response
- Cryptographic primitives (theory and implementation)
- Secure localization
- Secure clock synchronization
- Security applications
- Security policy and enforcement issues
- SCADA security

**Paper submission** Prospective authors are invited to submit full papers, up to 6 pages in length, using electronic submission via the conference web site. Papers should be formatted according to the official IEEE conference template. Papers will be fully refereed and accepted papers will be published in the conference proceedings by the **IEEE**.

Conference dates: December 3-6, 2007

Tutorials: December 3, 2007

Submission deadline: August 15, 2007

Notification of acceptance: September 17, 2007

Camera-ready manuscript: October 8, 2007
